

Little Lambs Home Daycare

Home Child Care Agency Drug and Medication Administration Policy and Procedures

Date Policy and Procedures Established: July 7, 2017

Date Policy and Procedures Updated: March 14, 2019

Purpose

The purpose of this policy and the procedures outlined within is to provide clear direction for staff, students and volunteers to follow for administering drugs or medication to children at home child care premises and for appropriate record-keeping.

Where the term drugs and/or medications is used in this policy, the term refers to any product with a drug identification number (DIN), with the exception of sunscreen, lotion, lip balm, bug spray, hand sanitizer and diaper cream that is not used for acute, symptomatic treatment. For the purpose of this policy, drugs and medications fall into the following two categories, unless otherwise specified:

- Prescription, intended for acute, symptomatic treatment; and
- Over-the-counter, intended for acute, symptomatic treatment.

The policy and procedures support children's health, safety and well-being by setting out measures to:

- ensure children receive only those drugs or medications deemed necessary and appropriate by their parents;
- reduce the potential for errors;
- ensure medications do not spoil due to improper storage;
- prevent accidental ingestion;
- administer emergency allergy and asthma drugs or medications to be administered quickly when needed; and
- safely administer drugs and medications according to established routines.

This policy is intended to fulfill the obligations set out under Ontario Regulation 137/15 for the administration of drugs and medication in home child care premises overseen by home child care agencies.

Note: definitions for terms used throughout this policy are provided in a Glossary at the end of the document.

Little Lambs Home Daycare

Policy

Parental Authorization to Administer Medication:

- Whenever possible, parents will be encouraged to administer drugs or medications to their children at home if this can be done without affecting the child's treatment schedule.
- Prescription and over-the-counter medications for acute, symptomatic treatment will only be administered to a child where a parent of the child has given written authorization to do so by completing the home child care agency's Authorization for Medication Administration (the form in Appendix A may be used). The Authorization for Medication Administration form must be accompanied by a doctor's note for over-the-counter medications.
- The authorization must include a schedule that sets out the times the drug or medication is to be given and the amounts to be administered.
- Where a drug or medication is to be administered to a child on an "as needed" basis (i.e. there is no specific schedule or time of the day for administration), the drug or medication must be accompanied with a doctor's note outlining signs and symptoms for administering the drug or medication and the appropriate dosage. In addition, the Authorization for Medication Administration Form must clearly indicate the situations under which the medication is to be given as outlined in the doctor's note, including observable symptoms. Examples may include:
 - 'when the child has a fever of 39.5 degrees Celsius';
 - 'when the child has a persistent cough and/or difficulty breathing'; and
 - 'when red hives appear on the skin', etc.
- Prescription/over-the-counter skin products (with a DIN) that need to be administered for acute or symptomatic treatment will only be administered to a child where a parent of the child has given written authorization to do so by completing the home child care agency's Authorization for Medication Administration.
- Providers will review Authorization for Medical Administration Forms with parents as needed to ensure the dosage continues to be accurate (e.g. based on the child's age or weight).
- As long as sunscreen, lotion, lip balm, bug spray, hand sanitizer and diaper cream are non-prescription and/or are not for acute (symptomatic) treatment, and due to their longer-term daily usage, these products:
 - must have a blanket authorization from a parent on the enrolment form;
 - can be administered without an Authorization for Medication Administration form; and
 - do not require record-keeping.
 - Are supplied by the parent/guardian and labelled with the child's name.

Little Lambs Home Daycare

Drug and Medication Requirements

All drugs and medications to be administered to children must meet the following requirements:

- All drugs and medications must be stored in their original containers as supplied by a pharmacist, or their original packages. Medications that have been removed from their original package or transferred into a different container will not be accepted or administered to children.
- All drug or medication containers must be clearly labelled with:
 - The child's full name;
 - The name of the drug or medication;
 - The dosage of the drug or medication;
 - Instructions for storage;
 - Instructions for administration;
 - The date of purchase of the medication for prescription medications; and
 - The expiry date of the medication, if applicable.
- The information provided on the written parental authorization must match with all the requirements listed above.
- Where information is missing on a drug or medication label and/or the written parental authorization does not match the label on the labelled container, the provider will not accept or administer the medication until the label and/or written parental authorization accurately contains all the required information.
- Over-the-counter epinephrine purchased for a specific child can be administered to a child with an individualized plan and emergency procedures for an anaphylactic allergy at a home child care premises as long as it is accompanied by a doctor's note and is clearly labeled with the child's name, the name of the drug or medication, the dosage, the date of expiration and the instructions for storage and administration.
- Drugs or medications purchased by the provider or other persons regularly present or ordinarily resident at a premises for their own use will be kept inaccessible (e.g. stored in a locked cupboard) and will not be administered to children receiving care at any time, except where written parental authorization to administer has been obtained (e.g. hand sanitizer).

Drug and Medication Handling and Storage:

- All drugs and medications will be kept inaccessible to children at all times. There are exceptions for emergency medications as outlined below:
- Emergency medications will never be locked up and will be made easily accessible to the provider at all times, including during outdoor play periods and off-premises activities.
- Where a child has written permission to carry their emergency allergy or asthma medication, precautions will be taken to ensure that these medications are not accessible to other children (e.g., in backpacks that are unattended).

Little Lambs Home Daycare

- In case of an emergency, providers and other persons regularly present or ordinarily resident at a premises will be made aware of the location of children's emergency medications at all times.
- Emergency medications will be brought on all evacuations and off-premises activities.
- Where a child has written permission to carry their emergency medication, precautions will be taken to ensure that these medications are not accessible to other children (e.g., in backpacks that are not attended).
 - Any topical products or drugs/medication in the first aid kit will not be used on children to clean or treat wounds. Children's cuts and wounds will be disinfected in accordance with local public health recommendations.
 - All drugs and medications for children will be stored in accordance with the instructions for storage on the label. Medication requiring refrigeration will be stored in the refrigerator.
 - Where drugs or medications are past their expiry date, they will be returned to the parent of the child, where possible, and this will be documented on the Authorization for Medication Administration Form.
 - Any drugs or medications remaining after the treatment period will be returned to a parent/guardian of the child, where possible, and this will be documented on the Authorization for Medication Administration Form.
 - Where attempts have been made to return a drug or medication to a parent and the parent has not taken the medication home, the provider will ensure that the efforts made to return the drug or medication have been documented in the daily written record, and the drug or medication will be returned to a pharmacist for proper disposal.

Drug and Medication Administration:

- Drugs or medications will be administered according to the instructions on the label and only with written parental authorization.
- The home child care provider will be in charge of and deals with all drugs and medications to reduce the potential for errors in medication administration, whether on or off the premises.
- A drug or medication will only be administered from its original container as supplied by a pharmacist or its original package, and where the container is clearly labelled as outlined under the Drug and Medication Requirements section of this policy.
- A drug or medication will only be administered using the appropriate dispenser (e.g. syringe, measuring spoon/cup, etc.).
 - To support the prompt administration of emergency medication:
 - Emergency medications may be administered to a child by any person with valid first aid training at a home child care premises; and
 - Children will be allowed to carry their own asthma or emergency medication in accordance with this policy, the drug and medication administration procedures, and the child's individualized plan, where applicable.
- Drugs or medications that are expired (including epinephrine) will not be administered at any time.

Record-Keeping:

- Records of medication administration will be completed using the Records of Medication Administration (the form in Appendix B may be used) every time drugs or medications are administered. Completed records will be kept in the child's file.

Little Lambs Home Daycare

- Where a child's medication administration form includes a schedule setting out specific times to administer the medication and the child is absent on a day medication would have been administered, the child's absence will be documented on the medication administration record to account for all days during the treatment period (excluding weekends, holidays and planned premises closures).
- If a dose is missed or given late, reasons will be documented on the record of medication administration and a parent/guardian will be notified as it may impact the treatment schedule or the child's health.
- Where a drug or medication is administered 'as needed' to treat specific symptoms outlined in a child's medication administration form or individualized plan and emergency procedures for an anaphylactic allergy (e.g. asthma, fever, allergic reaction), the incident will be documented in the daily written record and in the child's symptoms of illness record. A parent of the child will be notified.

Confidentiality

- Information about a child's medical needs will be treated confidentially and every effort will be made to protect the privacy of the child, except when information must be disclosed for the purpose of implementing the procedures in this policy and for legal reasons (e.g. to the Ministry of Education, College of Early Childhood Educators, law enforcement authorities or a Children's Aid Society).

Additional Policy Statements

IMPORTANT!

Providers do not supply medication of any kind. Supplying medication for a child is the parent/guardian responsibility. Never leave medication of any kind in your child's bag. Always hand deliver medication to the provider.

IT IS THE PARENT/GUARDIAN RESPONSIBILITY TO ASK FOR THE CHILD'S MEDICATION AT THE END OF THE DAY. It is not the provider's responsibility to remind the parent to take medications home.

Scenario	Roles and Responsibilities
<p>B) A child is authorized to carry their own emergency allergy medication.</p>	<p>1. The provider must:</p> <ul style="list-style-type: none"> i. ensure that written parental authorization is obtained to allow the child to carry their own emergency medication; ii. ensure that the medication remains on the child (e.g. fanny pack, holster) and is not kept or left unattended anywhere in the premises; iii. ensure that appropriate supervision is maintained of the child while they are carrying their medication and children in their proximity so that other children do not have access to the medication; and iv. where there are safety concerns relating to the child carrying his/her own medication (e.g. exposure to other children), notify the home child care agency and the child's parent of these concerns, and discuss and implement mitigating strategies. Document the concerns and resulting actions in the daily written record.

Little Lambs Home Daycare

Scenario	Roles and Responsibilities
<p>C) A prescription or over-the counter drug or medication must be administered to a child.</p>	<ol style="list-style-type: none"> 1. Where a non-emergency medication must be administered, the provider must: <ol style="list-style-type: none"> i. prepare the medication dosage in a well-lit area in the appropriate measuring device, where applicable (e.g. do not use a household spoon for liquid medications); ii. where possible, remove the child from the activity area to a quiet area with the least possible interruption; iii. administer the medication to the child in accordance with the instructions on the label and the written parental authorization; iv. document the administration of the drug or medication and any comments/observations on the medication administration record after it has been administered (see Appendix B); v. store the medication in the designated storage space in accordance with the instructions on the label and the parental authorization received on the medication administration form; and vi. where applicable, document any symptoms of ill health in the child's records. vii. Where a medication is administered on an "as needed" basis, notify a parent of the child. viii. Where a child is absent, document the absence on the Record of Drug/Medication Administration (Appendix B). 2. Where an emergency allergy medication must be administered due to a severe allergic reaction, the person who becomes aware of the emergency situation and/or the provider must immediately: <ol style="list-style-type: none"> i. administer the emergency medication to the child in accordance with the emergency procedures on the child's individualized plan; ii. have the provider administer first aid to the child, where appropriate; iii. contact, or have another person contact emergency services, where appropriate; and iv. contact a parent of the child. <p style="text-align: center;">After the emergency situation has ended:</p> <ol style="list-style-type: none"> v. document the administration of the drug or medication on the medication administration record (see Appendix B); vi. document the incident in the daily written record; and vii. document any symptoms of ill health in the child's records, where applicable. 3. Where a child is authorized to self-administer their own drug or medication, the provider must:

Little Lambs Home Daycare

Scenario	Roles and Responsibilities
<p>D) A child has a reaction to an administered drug or medication.</p>	<p>1. Where adverse symptoms appear upon medication administration, the provider must immediately:</p> <ul style="list-style-type: none"> i. administer first aid to the child, where appropriate; ii. contact emergency services, where appropriate and send the drug/medication and administration information with the child if they are leaving the premises to seek medical attention; iii. contact a parent of the child; iv. document the incident in the daily written record; and v. document any symptoms of ill health in the child's records, where applicable. <p>Where the reaction results in a life-threatening situation for the child, call emergency services and follow the serious occurrence policy and procedures.</p>
<p>E) A drug or medication is administered incorrectly (e.g. at the wrong time, wrong dosage given).</p>	<p>1. Where the wrong dosage has been administered, the provider must immediately:</p> <ul style="list-style-type: none"> i. where applicable, follow the steps outlined in Scenario D (a child has a reaction to an administered drug or medication); and ii. contact the parent of the child to report the error; iii. report the error to the home child care agency; iv. document the actual administration of the drug or medication on the medication administration record (see Appendix B); and v. document the incident in the daily written record. <p>Where the reaction results in a life-threatening situation for the child, call emergency services and follow the serious occurrence policy and procedures.</p>
<p>F) A drug or medication is administered to the wrong child.</p>	<p>1. The provider must immediately:</p> <ul style="list-style-type: none"> i. where applicable, follow the steps outlined in Scenario D (a child has a reaction to an administered drug or medication); and ii. contact the parents of the children affected to report the error; iii. report the error to the home child care agency; iv. document the incident in the daily written record; and v. administer the medication to the correct child per Scenario C (a drug or medication must be administered to a child). <p>Where the reaction results in a life-threatening situation for the child, call emergency services and follow the serious occurrence policy and procedures.</p>

Little Lambs Home Daycare

Scenario	Roles and Responsibilities
G) Surplus or expired medication is on site.	<ol style="list-style-type: none"> 1. Where possible, the surplus or expired medication must be returned to a parent of the child. 2. Where attempts have been made to return a drug or medication to a parent and the parent has not taken the medication home, the provider will attempt to return unused or expired drugs or medications to a local pharmacist for proper disposal. 3. provider must bring unused and expired drugs or medications to a local pharmacist for proper disposal. <p>Do not flush any drugs or medications down the toilet or sink or throw them in the garbage.</p>

Glossary

Drug Identification Number (DIN): An eight-digit number assigned by Health Canada to a drug product prior to being marketed in Canada. It uniquely identifies all drug products sold in a dosage form in Canada and is located on the label of prescription and over-the-counter drug products that have been evaluated and authorized for sale in Canada.

Drug or Medication: Any product with a drug identification number (DIN), with the exception of sunscreen, lotion, lip balm, bug spray, hand sanitizer and diaper cream that is not used for acute, symptomatic treatment. Drugs and medications fall into the following two categories, unless otherwise specified in this policy:

- Prescription, intended for acute, symptomatic treatment; and
- Over-the-counter, intended for acute, symptomatic treatment.

Emergency Medication: Prescription drugs or medications that are used in case of an urgent medical reaction that requires immediate treatment. Emergency medications include medications used to treat asthma (e.g. puffers) and anaphylactic allergies (e.g. epinephrine).

Home Child Care Provider (“provider”): An individual who is in charge of the children receiving care at the home premises. The home child care agency screens, approves, and monitors providers with whom it has established contractual agreements to provide child care.

Ordinarily a Resident of the Premises (“ordinarily resident”): Individuals who may have access to children in care (including supervised access) because they use the premises as a primary residence for at least some period during the year (e.g., the provider’s spouse, adult children, adult dependents, etc.).

Parent: A person having lawful custody of a child or a person who has demonstrated a settled intention to treat a child as a child of his or her family (all references to parent include legal guardians, but will be referred to as “parent” in the policy).

Little Lambs Home Daycare

Regularly Present at the Premises (“regularly present”): An individual who is present at the premises during hours in which care is provided often enough that children in care are able to recognize the individual. This would include persons who are present frequently during a short period of time (e.g., visiting family members) or repeatedly (e.g., the provider’s friend who visits the premises once a week, or a neighbour who visits the premises every other month to provide tutoring to the provider’s own child).
